

Cascade Clamps

Cascade Clamps - Cascade Manufacturing Company was founded in Portland, Oregon in 1943. They began as a small machine shop initially hiring 4 individuals. Sales for their initial year of operation totaled \$60,000. The first recorded sales revenues involved the assembly and machining of stainless steel valves, pipe fittings and different components. Within 5 years of operation, the business had stretched to 40 workers and their yearly sales volume had increased to three hundred thirty thousand dollars. Now, Cascade is one of the top worldwide producers in the material handling industry.

Manufacture and design of the company's initial hydraulic cylinder paved the way in Cascade's aggressive quest of better business possibilities. Over the past 60 years, the material handling business has matured into a highly sophisticated area and Cascade has proudly played a part in this progress. Cascade at the moment continues to grow as the premier supplier of forklift accessories and different associated products. The business feels assured in their skill to be able to continue to lead the way within the business by understanding buyer's needs in the future and remaining aggressive within the international market.

In the nineteen fifties, Cascade began designing, fabricating and selling hydraulic accessories. Construction was done in 1956 on a brand new facility to be able to accommodate all office and plant operations in Portland, Oregon at the company's current headquarters. Subsequent to 15 years of business, total staff reached a hundred and eighty staff and sales had reached nearly 2.3 million dollars.

In the year 1959 in Springfield, Oceanside the next production plant was built. nineteen sixty marked Cascade's preliminary transfer into the international world of the material handling industry as the business established interest in the Netherlands, England, and Australia.

In the year 1964, the business altered its name to the Cascade Corporation. Afterward in the year 1965, the company went public with a preliminary offering of two hundred thousand shares of common stock. Ever since then the business has expanded its manufacturing services within the continental US to the locations Warner Robins Georgia to go along with its already existing plants in Portland, Oregon and Springfield, Oceanside. Cascade products are fabricated globally because of lots of subsidiary operations. In the year 1944, a new facility was completed in Almere, the Netherlands which is Cascade's European control center. This facility is designed to be the essential customer service centre.

Continuing to develop, Cascade expanded their product offering further in 1996 and the year 1997 with the remarkable acquisition of five firms, along with the global leader in forks, the Kenhar Corporation.
