

Concrete Hopper

Concrete Hoppers - The self-dumping hopper accessory could automatically start to both dump and release as the bumper release contacts the side of a dumpster. After unloading is finished, the hopper could go back to original upright and locked position. This particular piece of machinery is also obtainable with a cable which enables operation from the seat of the lift truck to be able to have the option of manually dumping the hopper. There is a locking chain provided to lock the hopper to the fork truck. This particular product is constructed with reliable and consistent robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish to be able to maintain durability.
